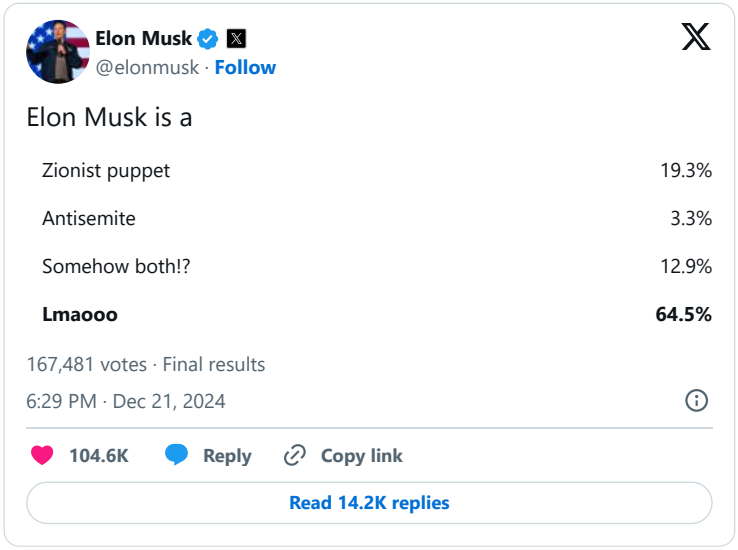
Beautifully put. This is me now:

1 - The Nazis - nah, obviously bad guys, look what they did! What a bunch of monsters... But they also govern USA, and too many Soros-like characters are in there... And I always felt that there were TOO MANY Hollywood films like "Schindler's



list", like +3 M deaths is horrible, but isn't that what we did "bc why not?" with the Russia-Ukraine conflict, with Afghanistan, Irak, Taiwan, and plenty other unnecessary current wars? Why no Hollywood for Middle East? No cares? Weird...

2 - Wow, this @realstewpeters guy sure

is antisemitic as fuck! He really hates the jews... but his criticism seems somewhat valid... i don't have the time to dig up this shit... Netanyahu in his film looks bad man... Why do USA gives so much money to this f**ers in the first place? Why is "Pegasus" jew, and the

Black Cube company? Why was Kanye punished so hard? Why do they remove the foreskin of their newborns? Tbh, I always found that barbaric, but what do I know right we have to respect other cultures...

3 - Oh, not only 4chan, Elon also said a couple antisemitic thins up and down?

Why do my curious friends don't hold in high regard many jews? Like, at least those who made their research, or some of the other intellectual ones, these poor guys really have bad fame actually... Having Epstein and Dick Cheney is actually bad luck... so many disgusting jewish

politicians...

4 - What if history is right, thought, and the only issue is that it was rewritten? Too many Schindler's list like films for <4 Million people, but who remembers the + 25 M Russian deaths at the fall of the USSR in the 90s? Nobody cares? Weird...

5 - Oh, shit,

@clif_high is actually saying that all this shit can be blamed to a good chunk to the goddamn jews that are seriously considering attacking the nuclear installations of Iran as we speak in this post https://x.com/clif_high/status/1870494412570279983
?

What did Putin say again https://x.com/DrLoupis/status/1870366835712962620?

Well, not that weird anymore.

Guys, I am not antisemitic, I never was, but what the fuck is going on. I think they had a point. Too much evidence.

What the fuck is going on.

I have Jewish friends.

This criticism is a big-picture one, doesn't apply to all 'em, but it's REAL.

I used to trust in you, Peter, but you failed me. And hence, so did Eric Weinstein, Bret Weinstein, Lex, Peter Thiel, Elon Musk...

You failed me. You are clever competent guys, you convinced me within the controlled opposition, but not anymore. Fuck you.

The lyrics and videoclip are full of satanic symbology from the very beginning. They speak about "the end of the world", when the ELohim arrives to Earth as a black sun.

The reference to the black hole is still confusing to me.

I mean, they literally include a lot of children in the video, one with a very scary scene dropping out milk, connect that to the lyrics from the start, the reptilian reference towards the end, and they literally cook up a barbie... And speak about how hell...

I think a more recent than 2 months Clif video tangentially discussing the "Discontinuity dilemma" may be this one:

I love that his Substack videos come already equipped with a transcript. I am very curious about the whole thing, while somewhat sceptical.
